

STATE FAIR COMMUNITY VACCINATION SITE UPDATE

Nate Fowler Speaking:

As of last Wednesday, we have begun administering only second-dose, follow up, appointments at the site through May 25. During this time, the site will not be open for new appointments/walk-ins until around May 19, when appointments open for the final two weeks of Johnson & Johnson, single-dose shots. These final two weeks of J&J shots will take place from May 26 through June 8. **Until these J&J appointments open later this month, you can direct Minnesotans interested in first-dose appointments to the Vaccine Connector [here](#).**
