

Get your COVID-19 vaccine and a FREE ride to the State Fair Vaccine Site

If you haven't already received a vaccine and are looking to get your first shot, Metro Mobility is offering FREE rides to appointments at the federally-supported vaccination site at the Minnesota State Fairgrounds.

You can book your ride in advance or same day based on your pick-up location. *Visit Metro Mobility's trip providers, service areas, and hours web page* to find your trip provider.

Once you book your trip, you won't need a coupon or ticket to get your free ride. Simply tell the reservationist that this is for a vaccine at the Minnesota State Fairgrounds. When you arrive for your appointment, Metro Mobility will wait with you.

Federal regulations require transportation operators to enforce wearing masks while boarding, riding, and exiting the vehicle. Wash your hands before riding, cover coughs and sneezes, and stay home if you're sick.
