

Key Messages: Vaccine Card Replacement

When you get your first COVID-19 vaccine, you'll receive a card with the name of the vaccine and the date. Bring that card with you for any other doses you need, including a booster dose. The provider will add information about additional doses to the card you already have. If you lose your card, MDH can't provide a new one. You can get a new one at your next vaccine appointment. You can also see options for getting your immunization record at <https://www.health.state.mn.us/people/immunize/miic/records.html>
