

Girl #1: If you don't have a mask and you need to sneeze, please cover your mouth and nose with your arms.

Girl #1: How do you feel?

Girl #2: I was sick but I am ok now.

Girl #1: Did you get COVID? What its like?

Girl #2: I got a sore throat and fever

Girl #1: Did you stay in your room all day?

Girl #2: Yes I did and it was boring!

Girl #1: Wait, if you are bored, you can try sleeping or reading a book. You can even draw or write in a journal. You could watch some TV and be on your phone for an hour or two then it will help you feel tired to sleep

Girl #2: Thanks for the tip

Girl #1: welcome!

Girl #2: if you got covid, pleas stay at home and rest. You can take a nap.

Girl #2: I heard you got COVID. Is that true?

Girl #1: Yes, I had a runny nose, coughing, and bad headaches. I also lost my taste. My siblings got sick too. They kept going into my room after me telling them don't come in so they dont get sick. I was alone and it was boring. I read books, drew, and did some writing. Thats it until I got better.

Girl #2: Wow that is good you can come back to school. It was important to take care of yourself and rest. Also it is important to wash your hands and keep wearing your mask.

Girl #1: Yes thank you for the reminder

*Wrong way to wear mask: Girl #2*

Girl #2: You need to keep your mask on your face the correct way.

Girl #2: Can you please go wash your hands after touching your nose and mouth?

Girl #1: Sure, teacher, can I go to the bathroom?

Girl #1: Wait! Did you wash your hands with soap?

Girl #2: Yes I did. I washed my hands slowly for 20 seconds with soap and water. I took my time.

Girl #1: Alright, I want to make sure that no one else will get COVID.

Girl #1: Make sure you wash your hands for 20 seconds with soap and water. If you wash too fast, it will not help destroy COVID germs. Make sure you wash your hands

Girl #1: Wow it is dry in here, my hands is too dry! Do you know where the lotion?

Girl #2: Wait, it is almost lunch time. Might be better to wait to and you will wash your hands. Lotion can stick to your mask if you touch it.

Girl #1: Oh thats right, thank you for reminding me that it will stick to my mask and lunch is soon. I will wait to wash my hands with water and soap.

Girl #1: We need to make sure we keep 6 feet away from each other.

Girl #2: Thats right!
