

Transcript for MDH Vaccination Commercial 1

Three years ago, COVID-19 forced our entire world to stop.

Even as we adjust to a new society, the fight against the virus continued.

That's why the Minnesota Department of Health is urging you to get the updated COVID-19 vaccine that's FDA approved.

It's specifically designed to combat the latest variants and available for everyone.

Aged six months and older, worried about the cost free or low cost vaccines are available just check in with your clinic before scheduling don't have insurance.

We got you just contact your nearest community health center, Corona is still around.

So keep yourself and your people safe together.

We can win this fight.
